

KHULA'S COTTAGE IS LAUNCHED AT THE HESC

8 March 2013

To our partners in travel,

Khula's Cottage is the recently unveiled eco-friendly self-catering cottage, built in a truly unique and extraordinary location within the perimeter of **The Hoedspruit Endangered Species Centre**.

This private retreat facilitates a true African getaway from the hustle and bustle of city living.

The cottage offers an exclusive and private setting to observe the life of HESC's cheetahs, and is the perfect base from which to explore the scenic wonders of the lowveld, including (but not limited to) God's Window, Bourke's Luck Potholes, and Pilgrim's Rest.

Khula's Cottage is set within its own enclosed and protected area, offering a private and personal experience. This is the ideal experience for self-drive clients who do not wish to compromise on comfort, but are looking for an authentic bush experience with great value for money.
