Hoedspruit Endangered Species Centre

## ABOUT THE HOEDSPRUIT ENDANGERED SPECIES CENTRE

The Hoedspruit Endangered Species Centre (HESC) has established itself as one of the leading private research and breeding facilities for endangered species in the country. Governed by a progressive and modern management approach, it concerns itself with the breeding and maintenance of several endangered indigenous wildlife species in southern Africa. The Centre places particular emphasis on the breeding and maintenance of cheetah in captivity. The excellent condition of these animals and the premises on which they are maintained, reflect the attention to detail, which is the hallmark of this facility.
